

Prospecting made easier with True Owner and Verified Tenant Data

Skip the manual process of obtaining property owner details and get straight to deal-making with nationwide, accurate and comprehensive legal owner data available where information is made public.

- Identify decision-makers, secure off-market listings and prospect efficiently
- Thousands of True Owner records are added to the platform weekly
- Contact information including phone number and email
- Search by True Owner, Tenant Information or Off-Market Listing

Access thousands of verified tenants

Utilize our comprehensive data including a detailed view of continuously updated tenant information to understand business needs, gain insights and capitalize on opportunities.

Support property analysis with existing commercial tenants

Uncover building tenant rosters and contact information

Connect tenants with suitable listings as space needs change

Identify Opportunities with CMBS, Fannie Mae and Freddie Mac

With the addition of Commercial Mortgage-Backed Securities (CMBS), Fannie Mae and Freddie Mac data, loans are mapped to property information and performance forecasts.

- Evaluating property financials
- Accessing loan terms like maturity dates
- Benchmarking comparable properties
- Prospect and uncover opportunities

Fill your business pipeline

PROSPECT SMARTER, NOT HARDER, SO YOU CAN CLOSE MORE DEALS

- Use sales history to track down property owners who haven't sold in a long time
- Identify owners to prospect and secure off-market listings

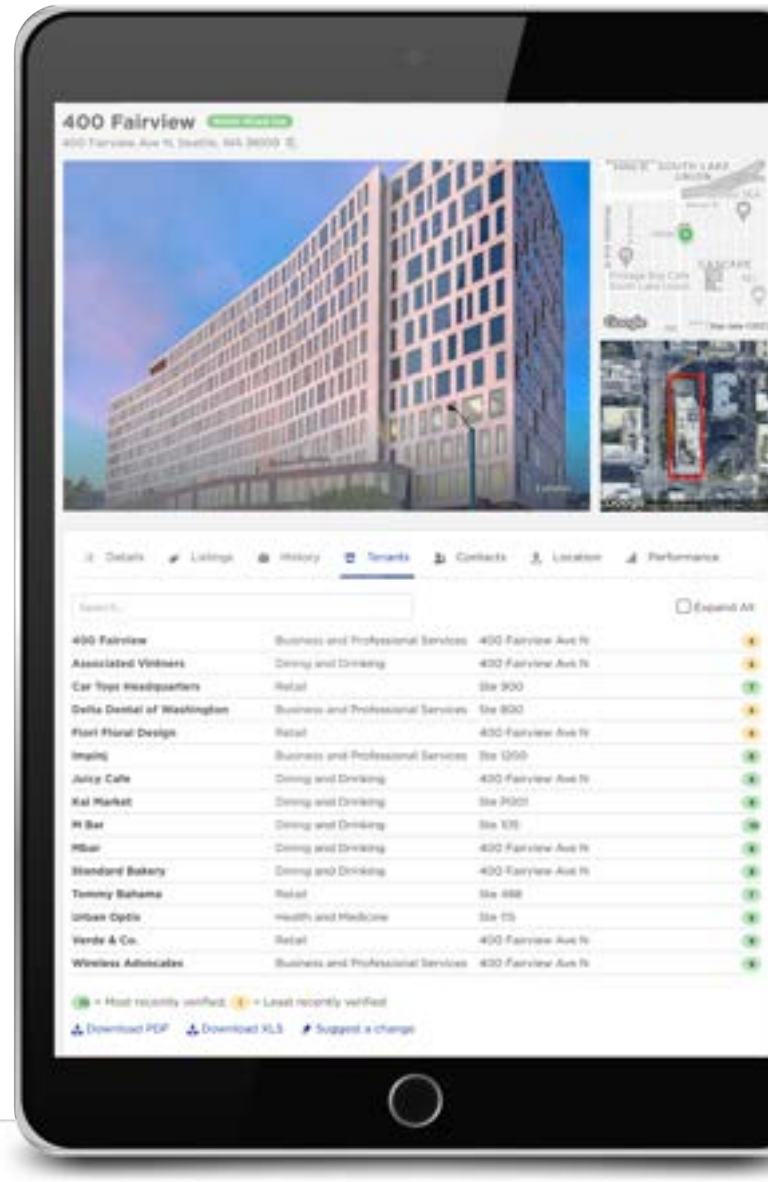

- View recently sold properties to identify if an investor is unloading the rest of their portfolio
- Build relationships with owners and tenants to grow your referral network

- Understand priority areas for business based on supply and demand
- Utilize forecasts, rent trends and analysis to understand market drivers and guide clients

- Search company records to understand CRE portfolio needs and opportunities
- Recognize which properties sell often as potential opportunities in the future
